Comune di Cesena

OBJECTIVE

The project aims to create a Youth Forum, based on peer-to-peer approach, to promote the active participation of young people in European policies and, in particular, to reflect on the impact these have on their daily lives.

High school students will discuss issues relating to European citizenship and EU policies, and the impact of European funds on Cesena and its surroundings.

A delegation from the Youth Forum will go on an educational trip to observe how EU institutions and the decision-making processes work.

ACTIVITIES

- **Training with experts and guided tours** of PNRR/FESR projects sites.
- **Production of media material** by the students on the training received and the final trip.
- **Organisation of an educational trip** to observe the functioning of EU institutions.
- **Final dissemination event** with the screening of the media created, on the occasion of Europe Day 2026. This will be accompanied by a theatre performance on Europe.

EXPECTED RESULTS

Students will become **protagonists in discussions and communication** with their peers, in order to involve them in European issues. The final event will reach 150 young people.
